In our country, special attention is paid to consistent development of all directions of music art, support of representatives of the industry in every way. In this process, various contests and festivals serve noble purposes, such as identifying talented young people, developing love for art in their hearts, helping them to show their abilities and potential, and expanding creative cooperation.

The successful organization of competitions for young musicians such as “Competizione dell’Opera” international competition of opera singers, “Spring of Youth” art festival, “Motherland Melodies”, “Sozlar navosi” along with the discovery of new talents, It is an important factor in the growing number of world-class fans of Uzbek music. During its creative activity, the youth symphony orchestra toured and performed gala concerts in all parts of our continent. If we look at history, on August 13, 2016, in Riga, the capital of the Republic of Latvia, the orchestra performed N. Rimsky-Korsakov's piece "Shaherezada" and

The “Bayram Overture” by M. Tajiyev was performed at an excellent level. When the Youth Orchestra went on tour for the first time, the preparation process was extremely difficult. Dealing with each performer individually, producing clean sounds separately, and then gathering together with the units, caused fatigue. A great deal of work has been done by organizing auditions for the orchestra going on this tour every week, memorizing the difficult parts of the pieces, memorizing the whole phrase if necessary and playing it at different speeds.

As part of the Culture Days of Uzbekistan, which lasted until September 14, folk art exhibitions on various topics were organized. A roundtable discussion called “Cultural heritage of Uzbekistan – in the eyes of the world” was also held. The fact that this event was held at a high level and received praise from Russian and foreign guests made us all happy.
